

ROOM 1: How to forecast amount of features to socialize

- Define the problem we want to solve
- Outline Criteria
- Stated intended outcome

- Share relevant information
- Ask questions
- Identify information gaps

- Generate ideas
- **There is no such thing as a bad idea!**
- Write as many ideas as you can
- Share and group the ideas
- Any other idea?

- Identify ideas to explore
- Which do you feel are the best ideas? (3 ideas)
- Based on feelings

- Consider feasibility
- Identify risks
- Identify errors in thinking

- Asses benefits of idea
- What do we like about this idea?
- How could we make this work?

- Do you feel good about these ideas?

- Select ideas to use
- Agree next steps
